

10 Qualities of Charismatic People: Secrets of Personal Magnetism

Did you ever notice that when some people walk into a room, all heads turn? Or when some people speak, they captivate everyone around them. And how about the type of people who when you shake their hand, you instantly trust them, believe them, and like them! Whats their secret? What do they have that most people dont? Its called charisma, undoubtedly one of the most desirable qualities in the world. By developing charisma: *You get far more respect than the average person! *People seem to adore you without any effort on your part! *You exude huge amounts of self-confidence and self-esteem! *You seem extremely powerful without being intimidating. *You put people at ease and make them feel understood! *And youre able to easily get what you want, because people instinctively want to help you! Charisma is easy to spot. And at the same time its not so easy to put your finger on exactly what it is about a person that makes him or her charismatic. Its an attractiveness that goes beyond good looks, an appeal that cant be labeled as intellectual brilliance or a terrific sense of humor. Most people see it as something elusive and unachievable-a kind of magical, mysterious magnetism that youre either born with or not. And the fact is that nothing could be further from the truth! Now you can be the person everyone wants to be like!
