

A Prelude to Desire

The popular adage about choosing careers to reinforce certain beliefs may be debatable, yet true for some: If we fear thoughts of dying, we become doctors, while those of us afraid of intimacy with the opposite sex, choose to be psychiatrists. Family counselors skilled in solving problems are usually able to apply their knowledge to their own lives. This was not possible for Dr. Diana Kincaid - a woman so traumatized by her past, she allowed her emotions to get in the way and nearly flunked her final exam. Friends unaware of her problem, tried to match Diana with blind dates. Because of her unwavering beliefs about men, they failed. Doctorate certificate in place, it took the soft-voiced Diana a while to establish a faithful clientele, only to again have her beliefs reinforced by an incident so out of the ordinary, she needed sleep medication. Dianas real problem began the morning Cyndi, a devoted friend, ordered breakfast, picked up a newspaper, and found a high-tech cell-phone. About to call a waitress, curiosity caused her to check the device. To her surprise, she found photos of her friend. Apprehensive, she took the phone to give to Diana. Convinced of being stalked, Dianas practice began to suffer. Unable to function, she gave the phone to the police. They questioned the mystery cell-phone owner, and what they found became a prelude to the most profound changes in Dr. Diana Kincaids life - setting off a series of events so astonishing, her views on romantic love dramatically changed. I will say this again: Unless time is of no consequence, Id advise readers to hold off opening this classic. As a gifted romance novelist, Mr. Salat will have you turning pages until the very end.
