

Sweet Hush: A Novel

The sorrows and secrets of Hush McGillens life are as deeply rooted as the famed Sweet Hush apple orchards her family has tended for more than a century. As a devoted mother, young widow, and successful business woman, Hush has worked hard to restore her familys farming fortunes. At the same time she has tried to hide the truth about her late husband and their tormented marriage from her son, Davis. Now Davis suddenly returns home from college to tell his mother he has eloped with a fellow student, and, to Hushs horror, the eyes of the entire world turn to her family and her private, guarded life - because her sons new wife is the rebellious daughter of the President of the United States.
