

Out of the Blue

TRIPPING THROUGH TIME NEVER FELT SO GOOD When New York editor Cassandra Kelley takes a break from her tour group in the Tower of London and slips down a forbidden staircase, she finds herself thrown back through time to Regency England and into the path of Marcus Pendleton. AND FALLING IN LOVE? EVEN BETTER A handsome aristocrat with a penchant for science, Marcus cant help but be intrigued by the brash young American whos somehow defied the laws of the universe and made her way to 1812. But its more than an academic interest the Marquess has in Cassandra, and judging from her response to his passionate kisses, she feels the same pull of attraction. As danger and suspicion mount over Cassandras outspoken behavior, the two work side-by-side to hold the ton at bay and discover a way back to the modern world. Will they find their happily-ever-after, or will their love be lost in the mists of time?
