

The Day Life Changed: The Bloom Of A Butterfly

No one ever thinks that when they leave home for the day that they won't return. A picture-perfect day in July, how could anything negative come from such a beautiful day? The best friend that would take me on my first ride of the summer season on a motorcycle was something that we looked forward to that day. Nothing was better than being on the back of a motorcycle and knowing that I would spend the day riding through town like we had done for so many years. The day would start off with excitement, joy, and peace. However, the day would turn tragic, when a distracted driver makes a left turn that would change my life forever. The life that I once knew was over, and the beginning of a new and unexpected journey was created. Tears, pain, fear, and depression would consume my life and turn me into a caterpillar. However, the power of silence, prayer, faith, and a new voice would turn tragedy into a remarkable recovery that would bloom me into a beautiful butterfly. The gift of sharing my story and bringing others hope and inspiration has changed my life forever. No storm that passes through your life is meant to last forever; it's meant to do exactly what it says, pass through.
