

Yesterday

THEN: The formation of the UNA, the high threat of eco-terrorism, the mammoth rates of unemployment and subsequent escape into a world of virtual reality are things any student can read about in their twenty-first century textbooks and part of the normal, background noise to Freya Kallas life. Until that world starts to crumble.NOW: Its 1985. Freya Kallas has just moved across the world and into a new life. On the outside, she fits in at her new high school, but Freya feels nothing but removed. Her mother blames it on the grief of her fathers death, but how does that explain the headaches and why do her memories feel so foggy? When Freya lays eyes on Garren Lowe, she cant get him out of her head. Shes sure that she knows him, despite his insistence that theyve never met. As Freya follows her instincts and pushes towards hidden truths, the two of them unveil a strange and dangerous world where their days may be numbered. Unsure who to trust, Freya and Garren go on the run from powerful forces determined to tear them apart and keep them from discovering the truth about their shared pasts (and futures), her visions, and the time and place they really came from. Yesterday will appeal to fans of James Dashners The Maze Runner, Veronica Roths Divergent, Amy Ryans Glow, Laini Taylors Daughter of Smoke and Bone, and Ally Condiess Matched.
