

## The Wilde Women

The Wilde sisters dove headfirst into this world on fire with life and expectation. With hair black as midnight and eyes blazing blue, they grow into truly irresistible women. But as well as being blessed with beauty and determination, the Wilde sisters are cursed with equal tastes for mischief and bad men. And both of these appetites always lead to trouble. Love either lifts a woman up or drags her down. When a Wilde woman dies, they don't have to dig a hole. On Black Friday in Five Points, Tennessee, Pearl Wilde finds her sister, Kat, in the barn wearing both her favorite shoes and her fiancé. As quick to fury as she is to passion, Pearl leaves town immediately. She returns five years later a sophisticated femme fatale, with her claws sharpened like stainless steel and a demeanor so cool that the townspeople can no longer tell if she even has sweat glands. Slowly and deliberately, Pearl begins her revenge on Kat by captivating all the men of Five Points, but all the while never forgetting the one man who had the power to break her heart.
