

## The Garment

Motherhood is every womans right and the natural outcome of a happy marriage. What then is the answer when a normal and beautiful young woman is country parson in the north of England, that her own marriage is a sham and wil never bring her the fulfillment she desperately needs? Grace Rouse is faced by this situation and like many other woman before her, she seeks to escape a mounting sense of frustration and despair by turning from the husband she has tried in vain to love to the comfort and release offered by another man. The final outcome, however, does not conform to pattern, and Grace is forced to wage a war between a man who can give her children and a man who passionately desires children but can only give them his name.
