

Miscorrection: Dimensions

The Karhath Empire assassinated President Daniel and took control of the six-planet system 200 years ago. Their rise to power marked the end of peace and prosperity. A secret rebellion called the Diamonds has found a way to travel to alternate realities. They are in search of a reality where the Karhath never gained power, hoping to discover a way to end their regime. For Jago, a Diamonds agent, the task is more important than anything because the Karhath cruelly murdered his parents. But when Jago disagrees with the Diamonds decision to end the Karhath Empire, he must choose to follow them or take his own path. Miscorrection: Dimensions is the second book in the Miscorrection Trilogy. It is preceded by Miscorrection: Preludes.
