

The McKenzie Artifact

Fast, dangerous, sexy. --Shannon McKenna

You've been hot and bothered, down and dirty, and deep undercover with the sexy spies of the Smithson Group--Christian Bane, Tripp Shaughnessy, Julian Samms, and Kelly John Beach. Now, meet Eli McKenzie, a hunky operative who doesn't play by the rule book. . .on anything. . .

Episode Five: The McKenzie Artifact

Get what you came for with Eli McKenzie, SG-5. Five months ago, SG-5 operative Eli McKenzie was in deep cover in Mexico, infiltrating a Spectra ring that kidnaps young girls and sells them into a life beyond imagining. Not being able to move on the Spectra scam right away was torture for the tough-but-compassionate superspy. But that wasn't the only problem--someone on the inside was slowly poisoning Eli, clouding his judgment and forcing him to make an abrupt trip back to the Smithson Group's headquarters to heal. Now, Eli's ready to return. . .with a vengeance. It seems his quick departure left a private investigator named Stella Banks in some hot water. Spectra operatives have nabbed the nosy Stella and are awaiting word on how to handle her disposal. Eli knows the only way to save her life and his is to reveal himself to Stella and get her to trust him. Seeing the way Stella takes care of the frightened girls melts Eli's armor, and soon, they find that the best way to survive this brutal assignment is to steal time in each other's arms. It's a bliss Eli's intent on keeping, no matter what he has to do to protect it. Because Eli McKenzie has unfinished business with Spectra--and with the woman who has renewed his heart--and this is one man who always finishes what he starts. . .
